

AI Chatbot Specification

■ ■ Gyms / Fitness Studios

AI chatbot specification for gyms, yoga studios, CrossFit boxes, pilates studios, and fitness centres in Singapore.

Suggested Pricing

Component	Price
One-time setup fee	\$400 - \$600
Monthly maintenance	\$80 - \$120/month
Add-on: WhatsApp integration	+\$150-200
Add-on: Payment collection	+\$100-150
Add-on: Custom integrations	+\$100-200 each

Business Pain Points (What You Sell Against)

These are the problems the business owner already knows they have. Lead with these in your pitch — don't sell 'AI', sell the solution to their pain.

- Class schedule enquiries flood WhatsApp — staff spend 1hr/day answering 'when is the next yoga class?'
- Membership plan comparisons confuse prospects — they leave without signing up.
- Trial class bookings and follow-ups are done manually — many leads go cold.
- Members forget class bookings, leading to overbooking or empty spots.
- Freeze/cancel policy questions are repetitive and create friction with members.
- No automated re-engagement when members stop attending classes.

30-Second Sales Pitch

I'll build an AI assistant for your studio that handles class bookings, answers membership questions, and sends reminders — 24/7. Members book classes via WhatsApp, get reminders, and your front desk spends time on member experience instead of admin. Reduce no-shows, fill more spots, convert more trials.

Feature Requirements

Build in order: Must Have first (your MVP), then Should Have (first upsell), then Nice to Have (premium tier).

Feature	Description	Priority	Effort
Class Schedule Lookup	Find classes by type, day, time, instructor	Must Have	Low
Membership Plan FAQ	Compare membership tiers, pricing, inclusions	Must Have	Low
Trial Class Booking	Book a first-time trial class or free session	Must Have	Medium
Class Booking for Members	Reserve a spot in a class, manage waitlist if full	Should Have	Medium
Payment for Packages	Purchase class packages or memberships via PayNow/Stripe	Should Have	Medium
Freeze/Cancel Policy FAQ	Answer questions about membership freeze, cancellation, and refunds	Nice to Have	Low

Detailed Feature Specifications

Use these specifications when building with Claude Code. Each feature includes the user story, technical implementation notes, and acceptance criteria.

Feature: Class Schedule Lookup

Priority: Must Have | **Effort:** Low

User Story: As a member, I want to quickly check what classes are available this week.

Technical Notes: Store weekly timetable as structured data. Parse queries for class type, day, time preference. Show upcoming classes with instructor, time, and remaining spots. Handle recurring weekly schedules.

Acceptance Criteria:

- Returns correct classes for any day/type combination
- Shows remaining spots if capacity tracking is available
- Handles 'tonight', 'this weekend', 'tomorrow morning' correctly
- Shows instructor name for each class

Feature: Membership Plan FAQ

Priority: Must Have | **Effort:** Low

User Story: As a prospect, I want to understand the difference between membership plans before I commit.

Technical Notes: Upload membership tier details. Handle comparison queries: 'what's the difference between Basic and Premium?'. Return structured comparison. Mention current sign-up promotions if active.

Acceptance Criteria:

- Compares plans clearly when asked
- Mentions contract length and cancellation terms
- Highlights current sign-up promotions
- Answers 'which plan is best for me' based on stated goals

Feature: Trial Class Booking

Priority: Must Have | **Effort:** Medium

User Story: As a prospect, I want to try a class before committing to a membership.

Technical Notes: Collect: name, phone, email, fitness experience level, preferred class type. Show available trial slots. Create booking. Send confirmation with what to bring (towel, water, workout attire). Follow up after trial with membership offer.

Acceptance Criteria:

- Books trial with correct class and time

- Sends 'what to bring' info with confirmation
- Limits one trial per person (check phone number)
- Triggers follow-up message 24hr after trial

Feature: Class Booking for Members

Priority: Should Have | **Effort:** Medium

User Story: As a member, I want to book into popular classes quickly so I don't miss out.

Technical Notes: Authenticate member by phone number or membership ID. Show available classes. Book spot and deduct from class pack if applicable. If class full, offer waitlist. Send confirmation.

Acceptance Criteria:

- Verifies member status before booking
- Deducts from class pack correctly
- Adds to waitlist when class is full
- Sends booking confirmation with class details

Feature: Payment for Packages

Priority: Should Have | **Effort:** Medium

User Story: As a member, I want to buy a new class pack or renew my membership without visiting the studio.

Technical Notes: Generate Stripe payment link or PayNow QR for selected package. Track payment confirmation. Update membership/pack status. Send receipt.

Acceptance Criteria:

- Lists available packages with correct pricing
- Generates payment link for selected package
- Confirms payment and updates membership status
- Sends receipt via WhatsApp

Feature: Freeze/Cancel Policy FAQ

Priority: Nice to Have | **Effort:** Low

User Story: As a member, I want to understand how to freeze or cancel my membership.

Technical Notes: Upload freeze/cancel policy document. Handle queries about freeze duration, fees, notice period, refund eligibility. For actual freeze/cancel requests, route to staff (don't process via bot).

Acceptance Criteria:

- Explains freeze and cancel policies accurately
- States required notice period and any fees
- Does NOT process actual freeze/cancel requests — routes to staff

- Handles 'can I pause' as a freeze query

Sample Conversations

These demonstrate expected chatbot behaviour. Use these as test cases during development.

Scenario: New prospect checking classes and booking a trial

Customer: What classes do you have on weekends?

Bot: This weekend we have: Saturday — Yoga 9am, HIIT 11am, Spin 3pm. Sunday — Pilates 10am, Boxing 12pm. Would you like to book a spot in any of these?

Customer: How much is membership?

Bot: We have 3 plans: Basic (\$89/mo, 8 classes), Unlimited (\$149/mo, unlimited classes), and Premium (\$199/mo, unlimited classes + 1 PT session). All plans include a free trial class. Would you like to try a class first?

Customer: Ya can try the Saturday yoga

Bot: Awesome! I'll book you into Saturday Yoga at 9am. Can I get your name and phone number? Also, have you done yoga before?

Scenario: Member asking about freezing membership

Customer: I'm going overseas for 2 months, can I pause my membership?

Bot: Yes! You can freeze your membership for up to 3 months per year. There's a \$10/month holding fee during the freeze period. You'll need to give at least 7 days' notice before the freeze starts. Would you like me to connect you with our front desk to process the freeze?

Technical Architecture

Core Stack (Required)

Component	Technology	Purpose
LLM	Claude API (claude-sonnet-4-20250514)	Understands questions and generates answers from context
Vector Database	ChromaDB (local) or Pinecone (cloud)	Stores document embeddings for RAG retrieval
Embedding Model	Voyage AI or OpenAI text-embedding-3-small	Converts text chunks to vectors
Backend	Python FastAPI	API server handling chat requests
Frontend Widget	Vanilla JS embeddable snippet	Chat bubble on client's website
Admin Dashboard	Streamlit or Next.js	Where business owner uploads docs and views analytics

Add-on Integrations

- **Google Calendar API:** Class schedule, booking management, instructor schedules
- **WhatsApp Business API:** Class reminders, booking confirmations, membership communications
- **Stripe / PayNow:** Package purchases, membership renewals, trial deposits
- **Telegram Bot:** Staff notifications for new sign-ups, class changes
- **Google Sheets / Airtable:** Member database, class pack tracking, attendance

Data Model (Documents to Collect from Client)

These are the documents and data you need from the business owner during onboarding. The quality of these documents directly determines chatbot accuracy.

- **Class Timetable:** Weekly schedule: class name, day, time, duration, instructor, max capacity
- **Membership Plans:** All tiers: name, price, inclusions, contract length, sign-up fee
- **Instructor Profiles:** Name, certifications, specialisations, teaching schedule
- **Policies:** Freeze policy, cancellation policy, refund policy, attendance policy
- **Studio Info:** Address, operating hours, facilities, what to bring, nearest MRT
- **Current Promotions:** Sign-up offers, referral programme, seasonal deals

PDPA Compliance Checklist (Singapore)

- Display clear data collection notice before collecting any personal data
- Get explicit consent before storing name, phone, email
- Provide opt-out option: 'Type STOP to opt out of data collection'
- Do not store NRIC, credit card numbers, or medical records in chat logs
- Implement data retention policy: auto-delete chat logs after 90 days
- Provide data export/deletion on request from the business owner
- Add privacy policy link in the chat widget footer

Singapore Localisation Notes

- Support Singlish phrasing: 'got discount ah?', 'how much one?', 'can book or not'
- Handle mixed language queries (English + Mandarin terms are common)
- Use SGD (\$) for all pricing — never USD
- Time format: 12-hour with AM/PM (e.g., 3pm, not 15:00)
- Support PayNow QR code generation for payments
- Reference local landmarks for directions ('near Jurong East MRT')
- Public holiday awareness for Singapore calendar
